About this edition

This PDF, *raw* edition of *Fontegara,* is part of my *Fontegara Working Kit.* It contains all the musical examples in *Fontegara* (from GFN 131 to GFN 2828), including the 175 originally handwritten cadences.

Here are some details from https://vicenteparrilla.itch.io/fontegara-pdf

"Fontegara musical examples, written in modern notation. Just as page layout was not a primary concern when producing the initial Finale files, this PDF version lacks a proper page layout in its current version. The main reason to include it is to enhance readability: it will increase accessibility to Fontegara contents for many people. After all, it is easy to obtain from the Finale files. Therefore, do not expect fancy-looking music scores here, just the plain notes with some ficta alterations."
